Rock Family:

The first half of 2011 has been a powerful reminder of how much I love being your pastor! Jesus is using the Rock to save, equip and send people into this world, establishing pervasive hope in our city, our country and throughout the ends of the earth. Week after week, seeing so many of you respond to the call of God on your life and choose to be part of His redeeming work in this world is an incredible privilege and a profound responsibility.

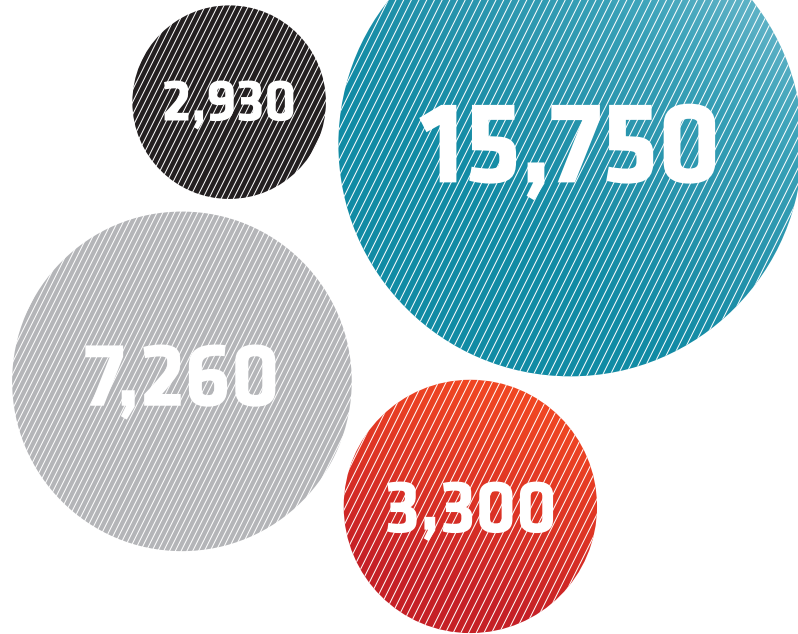

In the first six months of 2011, we developed new tools to increase our reach and scope of ministry. In January 2011, we started live-streaming each of our five Sunday services and now have people throughout the globe regularly watching and worshipping with us. In February, on our 11th anniversary, we launched Rock TV. What an incredible blessing to know that every Sunday at the Rock is now available to every country in the world!

Whether you are part of the Rock family in San Diego, Carlsbad, or throughout the globe, you are an important part of what God is doing here. Your investment of time, treasure and talent does not go unnoticed. You are making a difference and you are why I love being the pastor of the Rock. The best is yet to come!

(Eph. 3:20)

"I love the Rock! I tune into the live stream every week. I live in Norway and I feel like I can't connect with churches here. I have learned so much and I read the Bible every day. I hope that one day I can be there and watch it live." - *Trine Bjorkedal*
