*ou had an idea for something 17 years ago.*

**What was it?**

As a former gangbanger, I used to have low rider cars. When I became a Christian, I suddenly got this vision for how I could share the Gospel in the neighborhoods where gangs run. I was going to build a low rider that told the Gospel.

**How does it work?**

I'm about to finish creating a '63 Impala, that with paint, sound effects, lights, and hydraulics, will lead people through the crucifixion of Christ. For example, Jesus' face will be on the hood, His shoulders will drape across the fenders with His arms and hands painted across the doors.

When the narrator reads the Scripture that says the Romans stretched His hands out to nail them to the cross, the doors will separate outwardly from the body and a painful stretching sound effect will be heard. When they hammer the nails, a pounding sound effect will ring out. When they push the crown of the thorns into His head, the car will shake and lay down.
