Love. Hate.

Darkness cannot drive out darkness; only light can do that. Hate cannot drive out hate; only love can do that.  
— Dr. Martin Luther King Jr.

These words by one of the great leaders of the American Civil Rights Movement speak to the heart of what social justice should be about. However, there is a gap between what is commonly thought about social justice (and by effect, what we are presented as social justice in media) and what it means for social justice to happen.

Start with a quick Google search asking, *What is social justice?* Depending on how Google is feeling today, you may be presented with the following definition: "Justice in terms of the distribution of wealth, opportunities, and privileges within a society." Clicking through to several of the definitions listed on other sites yields similar results.

While the definitions are informative, they speak to the gap.
