

# Who is Jesus Really?

## Part 1, Logos

Pastor Miles McPherson – April 1, 2005

John 1:1

The “*Who is Jesus Really?*” series is designed to maximize the ability of people at the Rock to understand and defend the identity of Christ as outlined in the Bible. Confidence in the complete reliability of God’s Word is critical.

**Uniqueness of the Bible:** It consists of \_\_\_ books written over \_\_\_\_\_ years by over \_\_\_ authors in \_\_\_ different continents about \_\_\_\_\_ of topics.

### There are four types of tests used to determine the accuracy and reliability of the Bible:

1. **Bibliographical Test:** Ancient manuscripts are considered if there are 7-10 copies within \_\_\_\_\_ years of the event. New Testament – 31,000 manuscripts all within 1000 years – closest – 15 years. More than any other 10 ancient writings combined.
2. **External Test:** Is scripture \_\_\_\_\_ by outside documents such as archeology or other ancient historical writings? YES!

Church Fathers: The entire New Testament can be rewritten by their letters.

3. **Internal Test:** Did the authors believe they were writing \_\_\_\_\_? YES! (Luke 1:1, John 20:31, Acts 1:1) Matthew makes \_\_\_\_\_ Old Testament references connecting his gospel to past teachings.

The Canon or “standard measurement” was established based on four criteria:

- a. It was used by the \_\_\_\_\_.
- b. It is \_\_\_\_\_ and feels like scripture.
- c. It is consistent with the \_\_\_\_\_.
- d. The author was an \_\_\_\_\_ or a close associate of one.

4. **Supernatural Test:** Can Logos \_\_\_\_\_ your life?
  - It is the \_\_\_\_\_ expression of the Truth of God.
  - It is \_\_\_\_\_ Himself. (John 1:1-3)
  - It is alive and \_\_\_\_\_. (Hebrews 4:12-13)
  - It is useful for training in \_\_\_\_\_. (2 Timothy 3:16-17)
  - It is \_\_\_\_\_. (John 8:31-32)
